MONDAY - - FEBRUARY 17, 1896

EVANGELIST ROMIG offers to hearers a pleasing representation of the Plan of Salvation. His opening services give fine promise of a successful revival season.

THE California shots matched against the Hawaiian marksmen make a rather poor showing in practice. Unless they did much better on the day of contest the victory is certainly with the First

IT WOULD be downright pretty if some of the wise men could only build a real nice, simple little law that would regulate everything and everybody to the taste of everything and everybody else. But alas, the millenium is some distance yet.

JAPAN is going to increase her commercial navy by giving subsidies to shipbuilders for every ton above 1000, and to shipowners for all ships of 1000 tons that can make ten knots an hour, the subsidy being increased for every 500 tons additional or every additional knot of speed.

HAVE any of our legislators looked well into the Income Tax in the search for revenue production. The experience in the States was that it would have been a good thing if it "had worked." In Great Britain, where the estate levy also obtains, the Income Tax has for many years been in successful operation.

With unfinished business and new business the legislators have in session that means to them much labor. The Cabinet members, however, have carefully prepared a number of measures and the special commissions have been engaged in time saving services since the extraordinary session en-

YALE students taking the modern novel course have expressed their opinion that "Lorna Doone" is the finest modern novel they have read during the course. This novel got 140 votes. "A Gentleman of me' a Moueth in stance" and Stevenson's "Treasure Island" came next in order of pre ference.

A CALMLY discouraging comment on Cable prospects is made by a Washington paper. It is remarked that one of the companies wants altogether too much. The Spalding scheme is estimated as fair enough, but unsatisfactory in that it reaches with its line only to Hawai whereas sentiment is decidedly in favor of aiding only a plan to reach clear across the Pacific. Bennet, of New York and Paris and others heavily interested in Atlantic cables are said to be fixedly arrayed against a western cable connection

L. T. HAMPER, is at San Francisco lately returned from Japan, where he went in the interest of a number of Eastern manufacturing establishments. He says he was in all of the larger Japanese cities, and he thinks the cry of Japanese competition a false alarm. He does not consider the Japanese workmen at all original or inventive, and, as a result of careful observation, he saw none of their work that was other than a poor imitation of either English or American workmanship He does not deny that they are in dustrious and ambitious, but he says that even influential journals, like the Kobe Herald, are very much amused at the recent hue and ery about competition from Japan. He thinks it will be many a long year before Japan can approach America or England as a manufacturing country.

It is quite evident this traveler did not stop in Hawaii.

ONE REALLY serious objection to the proposed direct government control of the liquor traffic in Hawaii has come from a source un deniably favorable to reform. It is submitted that the rule prohibiting drinking on the sale premises will work sad havoe by sending liquor into the homes of natives and others whose domiciles are peculiar ly susceptible to such temptation and evil. Contra it has been argue that men rarely care to take liquor home unless they have been drink ing at a bar. Just how it is pro posed to reach the luau has not yet been made at all clear by the temperance people and so far as can be learned the unrestricted Waikiki beach traffic, withou license, has not been calculated upon. Perhaps all these side pro blems and difficulties are to be

figured out later. THE MODERN INVALID. Has tastes medicinally, in keeping with other luxuries. A remedy must be pleasantly acceptable in form, purely wholesome in composition, truly beneficial in effect and entirely free from every objectionable quality. If really ill he consults a physician: if constipated he uses the gentle family laxative Syrup of Fice.

For twenty Years Dr. Welch of Vineland, N. J., has made the preparing of unfermented grape juice a study. His product has an astonishing large sale in the U.S. It is the very best made, containing more grape sugar than other. It is not insipid, but retains that delicious fresh grape flavor, wholly lacking in other kinds of grape juice.

We have made the price right. We Welch's sell you grape juice at the same retail price asked in Vineland. Full quarts, 75c; pints, 50e; and half pints, 25c.

Get it of Hobron Drug
